

*Douglas*

Adapted from the famed Douglas DC-3 passenger aircraft, the Dakota was the most widely used military transport for Allied forces during WWII. Its majestic presence was a prominent figure in the sky, carrying supplies and cargo, transporting wounded soldiers from front lines, and actively participating in combat roles as it towed troop-carrying gliders and dropped paratroops into enemy territory. Our inspiration for the Douglas Dakota timepiece incorporates the elegant nuances of this historical military aircraft. By combining subtle design features with a clean and sophisticated look, the Dakota is instrumental in always keeping you on top of it all.

DOUGLAS DAKOTA

- MOVEMENT
  - Automatic, ETA 2824-2 or SELLITA SW200
- FUNCTION
  - Hours, minutes, second
- WATER RESISTANCE
  - 10 ATM
- GLASS TYPE
  - Anti-reflective sapphire crystal
- INDEXES MATERIAL
  - SuperLuminova

# DOUGLAS DAKOTA

V.3.31.5.227.4

CASE STEEL WITH BLACK COATING  
 STRAP KHAKI LEATHER  
 DIAL KHAKI

V.3.31.5.230.4

CASE STEEL WITH BLACK COATING  
 STRAP BLACK LEATHER  
 DIAL WHITE
